

ASSET P 192CL

PANEL	
Model	2 units 1950x950 mm. AES 950 solar panel
Absorber	Titanium (blue selective) coated copper absorbers welded to copper tubes by ultrasonic welding method
Insulation	<i>bottom</i> 50 mm. rock wool <i>sides</i> 20 mm. glass wool with glass tissue
Glazing	(Prismatic) low-iron tempered solar glass

HOT WATER TANK	
Model	1 unit pressurized-closed loop 190 lt. net capacity tank
Insulation	50 mm high density Polyurethane insulation
Other features	Magnesium anode for corrosion protection, Static painted colored galvanized steel outer cover Gate for electrical heater (1¼") and its plastic rain protection cap, ABS plastic tank outer caps Custom design rain-proof sealing at all connection points
Tank Options	Enameled (EN) /Stainless Steel 316
SYSTEM FEATURES	
Capacity	Average 230 lt. hot water at 45 ° C daily.
Included Components	Modular bolted stand Copper+ flexible insulated tank-panel connection pipes Close Loop Kits: Expansion tank (8 lt.), Air Vent, Manometer Unit delivered in carton boxes
